Uptime Institute Global Data Center Survey 2025: regional view

UII DATA REPORT 183 | AUGUST 2025

SUMMARY

The Uptime Institute Global Data Center Survey, now in its 15th year, is the most comprehensive and longest-running study of its kind. This report provides a regional view of the results and highlights the different challenges and strategies of data center owners and operators across the globe.

For analysis of the survey results from more than 800 data center operators and owners across all the regions combined, see the full report (*Uptime Institute Global Data Center Survey 2025*).

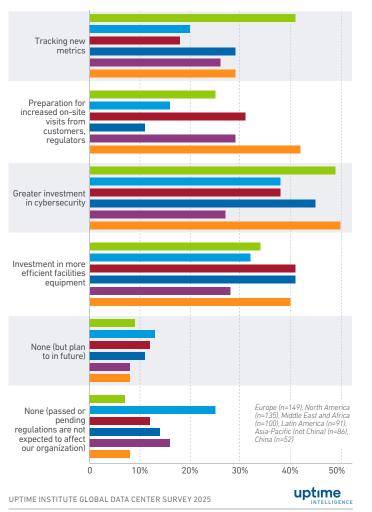

ABOUT THIS SURVEY

The Uptime Institute Global Data Center Survey 2025, conducted online in April and May 2025, had more than 800 data center owner and operator respondents. This report highlights some of the findings.

N America is less impacted by new regulations than other regions

Which of the following initiatives (if any) has your organization started or increased in response to recent or pending regulations in the past 12 months? Choose all that apply.

Operators in China, Europe and N America report lowest average PUEs

What is the average annual PUE for your data center?

Staffing challenges are greatest in APAC, Europe and Latin America

Please select any of the following statements that apply:

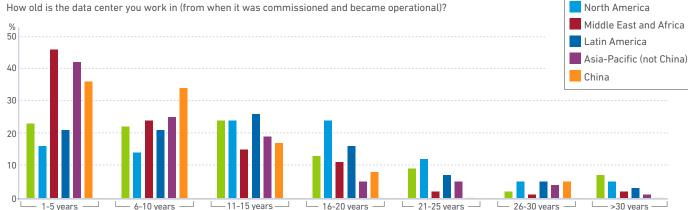

UPTIME INSTITUTE GLOBAL DATA CENTER SURVEY 2025

How old is the data center you work in (from when it was commissioned and became operational)?

Europe (n=178), North America (n=170), Middle East and Africa (n=123), Latin America (n=112), Asia-Pacific (not China) (n=106), China (n=64)

About Uptime Institute

Uptime Institute is the Global Digital Infrastructure Authority. Its Tier Standard is the IT industry's most trusted and adopted global standard for the proper design, construction, and operation of data centers – the backbone of the digital economy. For over 25 years, the company has served as the standard for data center reliability, sustainability, and efficiency, providing customers assurance that their digital infrastructure can perform at a level that is consistent with their business needs across a wide array of operating conditions.

With its data center Tier Standard & Certifications, Management & Operations reviews, broad range of related risk and performance assessments, and accredited educational curriculum completed by over 10,000 data center professionals, Uptime Institute has helped thousands of companies, in over 100 countries to optimize critical IT assets while managing costs, resources, and efficiency.

Uptime Institute is headquartered in New York, NY, with offices in Seattle, London, Sao Paulo, Dubai, Singapore, and Taipei. For more information, please visit www.uptimeinstitute.com
